Kimi Commerce d.o.o. osnovan je 1992.- e u Rijeci. Osnovna mu je djelatnost trgovina na veliko i malo keramičkim pločicama, sanitarijama i opremom za kupaonice.

Osluškujući zahtjeve tržišta tvrtka Kimi Commerce razvija novi brend K STONE i odlučuje se na investiranje u vlastitu proizvodnju kupnjom najboljeg stroja za CNC rezanje i obradu materijala - WATER JET. Ta je odluka rezultirala razvojem originalnih rješenja koja suvremene životne prostore obogaćuju elegancijom i osobnošću. Kimi commerce neprestano raste zahvaljujući kontinuiranim ulaganjima u istraživanje i razvoj, koja rezultiraju jedinstvenom kombinacijom dizajna i inovacija.

Ulaganjem u vlastitu proizvodnju WATER JET REZANJE u mogućnosti smo ponuditi stručnu i visokokvalitetnu uslugu rezanja vodenim mlazom. Water Jet rezanje se sve više upotrebljava u proizvodnji zbog svoje preciznosti i kvalitete, uz maksimalnu iskoristivost materijala. Water Jet tehnologija omogućuje obradu materijala bez izlaganja istog visokim temperaturama, što ne mijenja njegova svojstva i strukturu. Režemo keramiku, staklo, metale, kamen, plexiglas, te mnoge druge materijale.

The company Kimi Commerce d.o.o. was founded in 1992 in Rijeka. The company specialises in wholesale and retail of ceramic tiles, sanitary and bathroom fittings.

In response to market demands, the company Kimi Commerce developed a new brand called K STONE and decided to invest in its own production by buying a top-notch waterjet machine for CNC cutting and material processing. This resulted in the development of original solutions which give modern living spaces an elegant feel and character. Kimi Commerce has been growing steadily owing to continuous investments in research and development which provide for unique combination of design and innovation.

With the introduction of the WATERJET CUTTING method in our production, we are now able to offer professional waterjet cutting services of the highest quality. Water Jet cutting is increasingly used in production due to its precision and quality, with maximum material utilization. Water Jet technology has the ability to cut material without interfering with its inherent structure as there is no heat-affected zone. We cut ceramics, glass, metals, stone and plexiglass.
