The Future of Flushing

The SUBWAY DirectFlush toilet brings a cleanliness level to bathrooms that has never been seen before. Featuring a rimless design, SUBWAY DirectFlush offers optimal water flow for powerful cleaning of the bowl and removal of waste. Available in exclusive CeramicPlus® finish for even easier cleaning.

- Wall-mounted toilet with rimless dual-flush technology
- Optimal waterflow with every activation for a complete flush
- Efficient water use – .8 or 1.6 gpf
- More hygienic and easier to clean
- 1-man installation and superior aesthetics thanks to the exclusive SupraFix 2.0 hidden-fixation system
- IAPMO listed
